FIGHT  
BACK**

**STOP  
WORK  
AND  
FIGHT  
BACK**

# Strike!

## June 30th

June 30th is an important date for all opposed to the cuts as many unions will be taking strike action. The strike is about more than pay and conditions, it is about fighting back against the assault on our public services. We are taking action to defend the NHS, welfare and education.

We have already lost the Leeds Crisis Centre and many other public services. We're set to lose even more if nothing is done. We are taking action because we are under attack. A victory for the strikers is a victory for us all. But what can you do if you're either not in a union or in a union that isn't on strike?

Take the day off work or call in sick and join the strikers instead. Visit the picket lines – show your support and talk to like-minded people.

**On the day:**

**Infopoint: Leslie Silver Building  
(opposite the Dry Dock), 8.00-11.30am**

**Rally Against Cuts: City Square, 12pm  
followed by actions - more details on the day**
